Thank you for your interest in the **LinkedIn Explorers Program**! Here's what you can expect and the steps to get started:

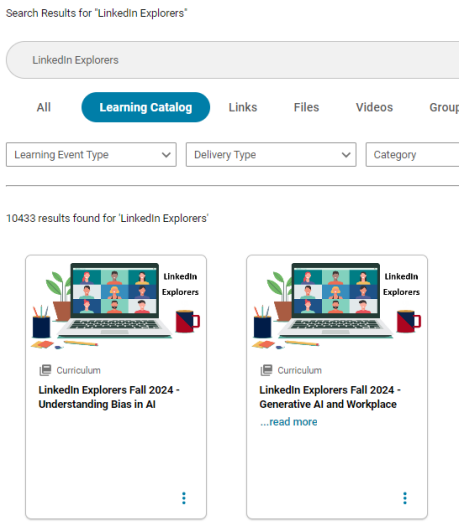
What to Expect:

- **Deepen Your Knowledge:** Gain a deeper understanding of LinkedIn course content.
- **Engage with Colleagues:** Connect with colleagues across the university and participate in meaningful conversations.
- **Course Time Commitment:** Watch the course at your own pace (about **1 hour**) prior to your discussion session.
- **Discussion Session:** Join a **45-minute** interactive discussion session to share insights and ideas.

Ready to Get Started? Follow these 5 easy steps to complete the LinkedIn Explorers Program:

Step 1: Choose Your Course

Explore the available course offerings and select the one you're interested in. Choose the course(s) that aligns with your goals and interests.

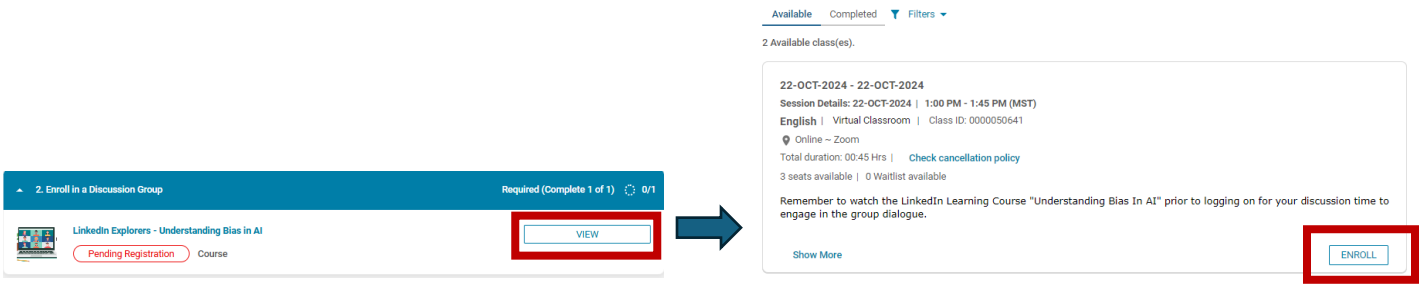


Step 2: Register for the Course

Once you've selected a course, register in EDGE to get access to all the learning materials, enroll and select a 45-minute discussion time.

LinkedIn Course Enrollment:

Discussion Time Enrollment:



Step 3: Watch the Course

Watch the course content at your convenience (plan for about **1 hour** of viewing time). We recommend blocking some time on your calendar 1 week to 3 days before your discussion session. Make sure to take your time and reflect on the material.

Step 4: Reflect on the Material

Take your time and reflect on the material. You can take notes on things that stood out for you, questions you have, or things you want to learn more about. You can also review the optional reflection questions to deepen your learning.

Step 5: Attend the Discussion Session

Participate in the discussion session via Zoom where you can connect, share insights, and ask questions with other participants.

Once you've completed the course and attended the discussion session, your progress will automatically be recorded in your **EDGE Learning account** under the **Completed Learning** section.

We look forward to seeing you in the program and hope you enjoy the learning experience!
