**UA Contact Tracing**

Positive test results from Campus Health and UA testing will be directed to Campus Health self-reporting website.

Positive cases from other facilities can also self-report if active UA faculty, staff, or student.

---

**Campus Health Website**

- **Student/Employee who tested positive**
  - Are you willing to voluntarily notify the UA campus contact tracing team?
    - **No**
      - The health department in your county will contact you in 2-5 days.
    - **Yes**
      - Please follow this link to start the self-reporting process.
      - Map generated and emailed to positive case within 4 hours - information can be provided during SAFER interview.
      - SAFER reaches out via phone call within 48 hours for case investigation. Ask questions about needed wrap-around services.
      - *Testing not recommended until 4-5 days post-exposure.*

**Human Resources & Risk Management Websites**
